PROFESSIONAL PROFILE

Business Analytics MSc candidate with two years of progressive supply-chain experience, a top-ranked UK retail sales record and practical delivery across Python, SQL, Power BI and Excel. Built a dissertation forecasting system that reduced RMSSE by 26.4% versus seasonal naive, won a 12-team analytics hackathon and earned two promotions at Ibrahim Fibres. Brings the technical range to build reliable analysis and the operational judgement to turn it into action.

CORE SKILLS

Analytics: Python (pandas, scikit-learn, LightGBM), R, SQL, Power BI, DAX, Power Query, Excel, Tableau, KNIME, Git

Methods: ETL, data cleaning, data modelling, statistics, forecasting, regression, classification, machine learning, optimisation, dashboarding, data visualisation

Business: Oracle ERP, procurement, imports, customs, logistics, supplier performance, commercial KPIs, stakeholder management

EDUCATION

Queen's University Belfast, United Kingdom | *MSc Business Analytics*

Sep 2025 - Sep 2026

- Dissertation submitted. Taught-module average at Distinction level; final classification pending.

Lahore School of Economics, Pakistan | *BSc (Hons) Business Administration*

Aug 2019 - Jul 2023

SELECTED ANALYTICS PROJECTS

- **Explainable Category-Store Demand Forecasting:** Built a reproducible forecasting and Power BI governance system on the M5 dataset across 30 category-store series, four ordered 28-day backtests and 10,080 out-of-sample forecasts. Global recursive LightGBM achieved 0.6528 RMSSE, 26.4% lower than seasonal naive, and won on 29 of 30 series; dashboards monitor provenance, model performance, horizon risk and exceptions.
- **Craigavon TV Live-Client Analytics:** Initiated and currently lead a live-client analytics project linking 28,115 jobs with 35,994 appointments; completed 59 of 60 data-quality checks and am developing a Power BI dashboard to support operational planning.
- **QBS Data for Good Hackathon:** Winner, QBS Data for Good Hackathon 2026 (12 teams): led a six-member team across current-state and predictive workflows and combined the evidence into one recommendation on GP practice pressure in Northern Ireland.

PROFESSIONAL EXPERIENCE

Currys, United Kingdom | *Sales Colleague*

Nov 2025 - Present

- Finished the fiscal year ranked first in both store and region and was selected for Currys' performance-based Top Squad across eight consecutive periods; in one recorded week delivered close to £21,000 against an £8,000 sales target.
- Sustain a Care & Repair plan attachment rate above 70% and an 80% customer feedback score by diagnosing needs, recommending suitable product, service and aftercare solutions, and training new colleagues in store processes and customer conversations.

Ibrahim Fibres Limited, Pakistan | *Senior Supply Chain Officer*

Aug 2023 - Sep 2025

- Promoted from Management Trainee Officer to Supply Chain Officer and then Senior Supply Chain Officer within two years, supporting global and local supply chains for machinery, spare parts, PTA, MEG, sub-raw materials and coal.
- Managed Oracle procure-to-receipt workflows and coordinated purchase requisitions, local and import letters of credit, Goods Declarations, customs duties, airport and seaport clearance, shipment tracking, inland transport and goods receipt.
- Coordinated approximately 60 international and local shipment and LC cases in peak months across suppliers, freight partners, customs agents, finance, transport and plant teams, resolving documentation and clearance exceptions to protect material availability.
- Maintained and improved a daily Excel control dashboard for shipment status, lead time, delivery and supplier performance, enabling earlier escalation and contributing to stronger delivery performance, shorter clearance cycles and fewer delays.

PROFESSIONAL DEVELOPMENT

Microsoft PL-300 Power BI Data Analyst and DP-900 Azure Data Fundamentals exam preparation - In progress
